

BC Chapter Meeting

Upholstery Deconstruction... ...and breakfast!

Are you ever nervous when cleaning upholstered furniture? Ever have something happen that you couldn't explain? At this meeting an upholsterer will be taking apart a piece of furniture to show you what's inside, and what construction processes can cause some odd cleaning results.

Come and see what might be hiding under the surface to leap out and bite you, what to expect from properly constructed furniture, and if improper construction was used how to leave the liability where it belongs.

When: Friday, November 20, 2009

Where: **Aero Carpet Services**
