

# CCINW Meeting

Thursday April 17th, 2014

## "Driving Safely"

Speaker: Tim Chase, ARM, CFPS

We pay much attention to safe use of chemicals and how to lift safely, but our biggest risk is actually being on the road. Even a small accident can have costly consequences and raise your insurance premiums. If you or your techs haven't thought about "safe driving" since our driving test, this brief seminar might be helpful.

*Check with your insurance company to see if attending a driving safety seminar will lower your premiums.*

Seating is limited, so don't delay.
