

# CCINW Washington Meeting

## A New and Simple Way to Spot-Dye

Plus, how the IICRC is changing

Tony Wheelwright will demonstrate the much simpler method of using solid dyes to perform color repair. No more mixing color and getting it wrong!

Tony has gone through the carpet mills training programs and learned how they fix color problems. Come and find out how you can offer this quick and skillful way of “touching up” spots and discolorations.

Also, Tony is the CCINW’s representative to the IICRC, so he will let us know what’s changing and take your suggestions to the IICRC meetings in the future.
