

CCINW Washington Meeting

Emergency planning for major flooding How can you help your customers when the water is deep?

- When: Thursday, November 12, 2009
- Where: Interlink Southcenter
641 Industry Dr.
Tukwila, WA 98188-3407 425 207 0149
- Time: 5:30PM – Network time // 6:00PM - Dinner
- Speakers: Dri-Eaz instructor Brandon Burton and local restoration experts
- Cost: \$25 if RSVP by Monday 9 November. Add \$5 at the door.
Add \$10 for non-members.
- RSVP: Jane at 253 208-6388 or info@ccinw.org

As always, meeting attendance is worth a half continuing education credit

Last year flooding devastated the Snohomish valley. This year, the Army Corp of Engineers

estimates that there is a 1 in 4 chance of a failure of the Howard Hansen dam causing major flooding in the Kent valley. Whether you are involved in major restoration or not, there is a chance you'll be asked to help when your customers call.

Brandon will discuss the best protocols to use in speaking with your customers. A panel of local restoration contractors will discuss what they're planning, and we'll get to hear from people in our industry that have their current businesses in the flooding danger zone – including Interlink Supply.

While at Interlink, you can walk over to the Green River and see what progress has been made by county flood control personnel.
